

Drillbotics® Sponsorship

Regional Competitions

2024

Drillbotics will host regional competitions for the 2023-2024 program. North American teams will meet in Houston, Texas in May 2024. European, Asian and African teams will meet in a European location in June 2024. Dates and location are subject to change. It is also possible that tests will be conducted online (virtually) if in-person tests cannot be held. Sponsors may contribute to the program to help promote drilling automation by engaging with university students. In return, the Drillbotics committee will prominently display the logo of each sponsor during presentations at each event. Sponsors will also be provided with a table at their respective event, where they may offer news and developments of their drilling automation efforts to the students, professors, judges and industry professionals at the event. Sponsors may provide hand-outs and promotional material. They may openly recruit students as potential future employees.

The cost for sponsorships in US\$2,500 at the Houston event and €2,000 at the European event.

Please email logos to Competition@Drillbotics.com

Terms and conditions

- 1.1. In no event will SPE, including its directors, officers, employees and agents, as well as DSATS members and officers, and sponsors of the competition, be liable for any damages whatsoever, including without limitation, direct, indirect, special, incidental, consequential, lost profits, or punitive, whether based on contract, tort or any other legal theory, even if SPE or DSATS has been advised of the possibility of such damages.
- 1.2. Participants and Universities agree to indemnify and hold harmless SPE, its directors, officers, employees and agents, as well as DSATS members and officers, and sponsors of the competition, from all liability, injuries, loss damages, costs or expenses (including attorneys' fees) which are sustained, incurred or required arising out of participation by any parties involved in the competition.
